President Roosevelt is no different from other fishermen—the biggest one got away.

Haven't read anything lately about Al Smith—maybe he is taking that walk before the convention meets.

The gubernatorial contest is beginning to warm up—they are now telling the truth about each other. From now until the primary it is going to be hot.

'Betcher that judge out in California who assessed a \$50 fine on General Pershing the other day was one of the Dough Boys who served under the general in France.

A medical journal says that girls usually cease to grow between the ages of 15 and 16. May-be, but we know three or four who put on a few pounds after they were 30.

More than fifty stenographers applied for the job in the nudist colony near Tampa; the coveted plum, however, was awarded to a young lady from Miami. Those from the lower East Coast always did know how to dress.

Tomato shipments will begin in this section next week. There is a bumper crop this season and the growers are expecting top prices. The quality is reported to be exceptionally good.

The Mexican government did the unusual the other day when it expelled a former president from the United States. In the past when it wanted to get rid of an individual they would place him in front of a firing squad.

Notice a name among the candidates for county superintendent in the Arcadian one man who ran for the same office in Hardee county a few terms ago. Evidently he believes in that old adage, "If at first you don't succeed," etc.

From now until the day of the primary the candidates for the gubernatorial honor will fire their big guns in every nook and corner in the state. Out of the 18 candidates—from this distance—it is going to be hard to pick a winner.

Ed Bentley, of Lakeland, designated for attorney general, designated pardon as "the biggest racket in the state." And according to the Vero Beach Press-Journal not many people will quarrel with him over his classification.

-Greyhounds made their final dashes and the lovers who picked their last favorite last Friday when the seven trucks in the state closed for the season. The Florida Racing Commission stated it was the biggest season in the state's history.

Harold Cole, president of the State Chamber of Commerce, in his address the other night at a district meeting of the Junior Chamber, stated that "Florida through expending more than \$10,000,000 annually on its schools yet it has the worst system of any state in the union. And Mr. Cole knows whereof he speaks.

This is the first time in many years that Jacksonville has failed to put a gubernatorial candidate in the field and as a result the candidates are bidding for the Duval county vote. In their scramble for the coveted prize they don't want to overlook the individual who has the "hot" vote in the West Tampa district—it's worth gambling.

All over the state reports have been made this year and from Duval county an increase of almost \$400 has been added to the registration books. There are, in the Duval county books, 31,044 men and women, while the previous high mark was made in 1932 with 26,332 names on the book. Hillsborough county hasn't reported yet.

The city of Tupelo, Mississippi, was the home of the late "Private" John Allen, Civil War veteran and a unique and fiery member of the national congress for many years.

Tupelo was a beautiful little city. Many of the structures destroyed dated back before the war between the states. It is located in the northern portion of the Mississippi cotton belt; its people are thrifty and within a short time believe in that old adage, "If at first you don't succeed," etc.

## "A TALE OF TWO CITIES" GRIPS ITS AUDIENCES

Truly magnificent in its spectacular sweep, yet absorbing in its delightful intimacy, "A Tale of Two Cities" starring Ronald Colman, plays Sunday and Monday at the Everglades theatre.

It takes its place among the immortal works of the screen, entertainment which cannot be praised too highly. It is a play that no man, woman or child can afford to miss.

Ronald Colman's fans will find him at his best. He never has had a role which gave him such opportunity for the quiet humor, the high drama and the poignancy he expresses so well. As Sydney Carton, whimsical, sardonic, brilliant and cool, he reaches the peak of his artistic career.

There is one chance in 20,000,000 years of a comet striking the earth, according to astronomers.

Ed Bentley, Candidate  
Spoke Here Tuesday

Lakeland Candidate for Attorney  
General Touring Glades Section This Week

Ed Bentley, of Lakeland, candidate for attorney general, is touring the Glades section this week in the interest of his candidacy. On last Tuesday night he addressed the voters of Pahokee and Belle Glade.

Mr. Bentley on opening his address immediately launched out at the bond companies and their special interests seeking favoritism and said that he would make the attorney general's office the militant defender of the state and its citizens from unscrupulous foreign corporations. He bitterly condemned the freedom with which pardons are issued and he referred to it as a pardon racket.

Mr. Bentley, who has been a friend of education, stated that he favored a nine months' public school term and that as a member of the state board of education he would wage a fight for the schools, a better wage with prompt pay, equal to other governmental employees of like education and experience.

Mr. Bentley's address was well received by the citizens of both towns.

## Townsend Club Notes

A communication from the office of the State Area Manager, J. E. Mattocks, of the Townsend Plan, of its office in Orlando to the effect that Mr. Nathan J. Roberts has been appointed as a member of the National Board of Directors. Mr. Mattocks outlines plans for work among the state clubs re-

garding registration, press reports, speaking dates, etc.

Attached to the communication was Special Bulletin No. 1 from the national headquarters to which attached a letter addressed to Congressman John Steven McGroarty by Dr. Francis E. Townsend, which was recommended to the benefit of those interested in this movement.

The letter follows:  
Washington, D. C. April 2, 1936.  
Congressman John Steven McGroarty,  
House of Representatives,  
Washington, D. C.

"Dear Mr. McGroarty:  
"I am now and always have been committed to the transactions tax, though I have often said that the transactions tax, combined with other taxes selected by Congress, will satisfy me if it produces the \$200 a month. It is my own opinion that the transactions tax is the best medium to do this.

"It should be remembered that the present McGroarty Bill does not say that the transactions tax shall be used exclusively to raise the amount necessary for the payment of \$200 a month to those eligible. As you well know, other taxes are also proposed.

"I note also your remarks that I have accepted the Downey Plan for the Townsend Plan. This is wholly false. Mr. Downey is himself thoroughly committed to every fundamental of the Townsend Plan and has loyally worked therefore. His ideas differ from mine in one or two minor details, but he has never attempted to divert my mind from the original conception of the Plan, including the transactions tax. Your statement that all reports to the contrary are wholly erroneous.

"Mr. Downey is acting as my personal attorney, in which ca-

pacity he has performed the most loyal services for our movement.

"Whenever Mr. McGroarty, any change is made in the Plan it will be officially announced in our official publication, the Townsend National Weekly, and in bulletins. Your erroneous statements concerning my attitude are unfortunate and confusing.

"I suppose your attitude toward me is prompted by the refusal of the Board of Directors and the Townsend clubs to support your presidential ticket.

"As to that issue I can only restate our present policy; that the

Townsend organization will not at this time exhaust its political energies in the support of any presidential candidate, including yourself. This because we have nothing to gain and everything to lose thereby. The Townsend club, the Board of Directors and I must decide this issue, not from a personal viewpoint, but from that of the Townsend movement.

"I hope you will understand my first loyalty must be to the Townsend people and the Townsend cause.

"I beg to remain,  
"Yours sincerely,  
"DR. FRANCIS E. TOWNSEND."

**Farm Products Held Exempted From Tax**  
Ruling Also Frees Dairy And Bakery Goods From Gross Receipts Levy

Circuit Judge J. B. Johnson sitting in Tallahassee last Monday, held dairy, bakery, agricultural and horticultural products and fertilizers are exempt, no matter who sells them, from the gross receipts levy of the 1935 chain store tax law.

The Jackson-Green company of Tampa, owner of several feed stores, obtained a temporary injunction restraining Comptroller J. M. Lee from collecting the tax on its receipts.

The attorney general's office announced it immediately would appeal to the Supreme court.

Judge Johnson previously had declared the entire chain store tax law unconstitutional, but was overruled when the Supreme court upheld the gross receipts taxes and graduated occupational license.
